

SUNEEL KUMAR GUPTA

Lead Backend .Net Developer | Azure | Micro services | Web API | SQL Server | GEN AI

Phone: +91 9899767132 | +91 7827799498 Email: suneelgupta87@gmail.com

Greater Noida West, Greater Noida, Uttar Pradesh

PROFESSIONAL SUMMARY

- .NET Technical Lead over **12+ years of experience** in designing, developing, modernizing, and supporting enterprise applications using **C#, ASP.NET, .NET Core, Web API, Angular, Entity Framework Core, Micro services, Azure** and **SQL Server** across multiple domain such as **Banking and Investment, Energy, and Travel**.
 - Hands-on experience (4 Years) with **Azure App Services, Azure Functions, Azure Storage, Azure SQL, Azure Logic Apps, Azure DevOps CI/CD** and **Azure Cosmos DB** using **Jenkins** and **Octopus Deploy**.
 - Strong expertise in **SQL Server, complex SQL queries, Stored Procedures, functions**, triggers, Query Optimization, Performance Tuning, and Database Design.
 - Proven experience leading development teams, conducting code reviews, mentoring developers, and collaborating with business stakeholders in agile environments.
 - Experienced in preparing detailed **functional specifications, test cases**, release document like risk assessment, **user training materials**, and **project documentation** to support successful project execution.
 - Experienced in using **Generative AI, RAG, AI Agents**, and AI-assisted development tools including **GitHub Copilot, Claude, and Gemini** to improve development productivity, automation, and code quality.
-

TECHNICAL SKILLS

- **Backend:** C#, ASP.NET, .NET Core (8.0+), Web API, Entity Framework, Micro Services.
 - **Databases:** SQL Server (2008–2022), Oracle, PostgreSQL, NO SQL.
 - **Cloud Platform:** Microsoft Azure (App Services, Vms, SQL DB, Azure Storage, Azure Function, Logic App, Cosmos DB).
 - **CI/CD Pipelines:** GitHub Actions, Azure DevOps, Jenkins, Octopus.
 - **Front-End:** Razor Pages, ASPX, JavaScript, jQuery, Bootstrap, **Angular (18+ version)**, Typescript.
 - **AI Tools:** Copilot, ChatGPT, Cursor.
 - **Others:** Windows Services, IIS, SSIS, Unit Testing, Rally, Jira.
-

PROFESSIONAL EXPERIENCE

Technical Lead - Coforge Ltd.

Greater Noida | Jan 2020 – Present

Project (RBPS): RBPS (Retirement Benefit Payment System) is a wealth management application used by retirement plan administrators to manage pension and retirement benefit plans. It helps to manage participant details, Benefit/Tax calculation, Payment Processing, Tax Reporting, Tax Form generation etc.

Key Responsibilities:

- Gathered business requirements, analysed functional specifications, and translated them into scalable technical solutions.
- Designed, developed, and modernized enterprise applications using **.NET Core, ASP.NET, Angular, Micro services, and Azure**.
- Led the modernization of legacy applications by upgrading the technology stack, improving performance, security, and browser compatibility.
- Developed and optimized RESTful APIs following REST principles and micro services architecture.
- Designed and optimized SQL Server database objects, including **stored procedures, functions, views, and indexes**, to improve application performance.
- Performed database performance tuning through query optimization, execution plan analysis, and indexing strategies.
- Implemented asynchronous programming, caching, and code optimization techniques to improve application scalability and response time.
- Managed Azure services including **App Services, Azure SQL Database, Storage Accounts, Azure Functions, and Logic Apps** for application hosting and integration.
- Planned, assigned, and tracked development tasks, conducted code reviews, and mentored team members to ensure high-quality deliverables.
- Collaborated with business analysts, QA teams, DevOps engineers, and stakeholders throughout agile development and release cycles.
- Automated application deployment using **Jenkins, Octopus Deploy, and PowerShell**, reducing manual deployment effort.
- Prepared technical documentation, participated in sprint planning, code reviews, unit testing, UAT support, and production deployments.
- Provided production support, root cause analysis, and timely resolution of critical production issues while ensuring SLA compliance.

Deliverables:

- Technical Design Documents (**TDD**), API Specifications, and Solution Design Documents.
- RESTful APIs, Microservices, and SQL Server database components.
- Legacy application modernization and migration documentation.
- Azure deployment configurations and **CI/CD** pipeline implementation.
- Test cases, UAT support, and production deployment documentation.
- Production support, RCA reports, and technical knowledge transfer documents.

Project - R-APDRP (Restructured Accelerated Power Development and Reforms Programme) is a Government of India initiative aimed at reducing power distribution losses and modernizing electricity boards. Managed, maintained and enhanced State Electricity board application for Jharkhand, Rajasthan and Himanchal Pradesh. Its provide consumer management, meter reading and data logging, billing and collection, consumer service center etc.

Key Responsibilities:

- Gathered business requirements and developed modules for consumer management, billing, meter reading, and fault management.
- Implemented data migration and synchronization processes to import consumer, meter reading, and billing data received from external vendors into the central database.
- Developed fault management functionalities to register, track, assign, and resolve electricity outage and maintenance requests.
- Performed unit testing, defect fixing, deployment support, and post-production maintenance while ensuring application availability and performance.
- Developed secure REST APIs for mobile applications, enabling field engineers to access and update real-time operational data.

Senior Consultant- TI Infotech Pvt Ltd,

📅 05/2014 – 05/2018 📍 Noida

Project – Travel Cloud Suite is TI Infotech's flagship product for the travel domain, serving as a backend tool to customize holiday packages, manage sightseeing itineraries, and provide integrated hotel and flight booking engines. It supports both **B2C** and **B2B** applications, enabling seamless travel booking experiences for end-users and corporate clients.

Key Responsibilities:

- Gathered business requirements and developed modules for B2B and B2C travel booking applications using ASP.NET, C#, MVC, Web API, and SQL Server.
- Integrated third party APIs for hotel, flight, sightseeing, and payment providers to enable seamless travel booking and reservation workflows.
- Designed and developed RESTful and SOAP-based services for booking engines and external vendor integrations.
- Developed and maintained backend modules for itinerary management, package customization, booking management, and travel operations.
- Designed and optimized SQL Server database objects, including stored procedures, functions, views, and queries, to support high-volume booking transactions.
- Developed SSRS reports for booking summaries, agent ledger, credit wallet, sales, and financial reporting.
- Collaborated with cross-functional teams to implement new features, resolve production issues, and deliver application enhancements.
- Performed unit testing, defect fixing, deployment support, and production maintenance to ensure application stability and availability.

Deliverables:

- Travel booking modules for **B2B** and **B2C** web applications.

- **RESTful** and **SOAP APIs** for hotel, flight, and third-party vendor integrations.
 - SQL Server database components (Stored Procedures, Functions, Views, and Reports).
 - **SSRS** reports for booking, ledger, wallet, and business reporting.
 - Third party **API** integration components and technical documentation.
 - Deployment packages, release documentation, and production support artifacts.
-

Certification

- GitHub Copilot Certification (**GH-300**)
-

EDUCATION

- MCA from KNIT, Sultanpur (Gautam Buddh Technical University), U.P. – 2012
 - B.Sc. from Lucknow Christian College, Lucknow University – 2008
-

PERSONAL DETAILS

- Father's Name: Mr. Bhagwan Das Gupta
 - Date of Birth: 14/08/1987
 - Marital Status: Married
 - Permanent Address: Dist. Ambedkar Nagar, Uttar Pradesh
 - Current Address: A-215, GR Garden 2, Greater Noida West, Uttar Pradesh
 - Languages Known: English, Hindi
-

Declaration

I hereby declare that all the above information is true, complete, and correct to the best of my knowledge, and belief.

Date: 22/Aug/2026

Place: Noida

Candidate's Signature:
